

Precious Metal Leaf Workshop with Richard La Londe

May 21, 2007

Monday 9:30a – 5:00p

at my studio on beautiful Whidbey Island
Spectacular Lunch provided

Participants in the previous three day Frit Fusing Workshop will have the first opportunity to sign up for this class and at a reduced rate!

In this workshop you will learn how to apply gold and silver leaf to your projects and how to fuse gold and silver foils. You will adhere gold foil to glass and etch a design into it, then cover this with clear glass, apply more gold and silver foil to the top surface and fire the tile. Students will also sandblast a design into another glass tile and apply gold leaf to the surface and also leaf the back of the tile. Techniques will be demonstrated, glass, leaf, foil, and special tools will be supplied.

The workshop is \$195

For Three Day Frit Workshop participants the cost is \$145
